

NEWSLETTER AUGUST 2010

The sun was shining, it was black Friday and the smell of 2 stroke fumes filled the air....
VARROOOO OMMMM!!!!!!!

It was **ECC's** BLACK FRIDAY BURN OUT Event at Eastern Creek and over 30 of our very excited clients joined us for an AWESOME day out and a lot of fun!

Well if you missed it, on Friday 13th of August ECC hosted the very first Lighting Engineers **Go Karting Enduro Event**.

ECC's Managing Director, **Russell Napier** commented

do the ECC staff, sometimes it's just nice to take time out and do something together that's a bit of fun. We believe this is really key to the relationships we have with our clients to make sure it's not all just serious business..."

"we know how hard our clients work as do the ECC staff, sometimes it's just nice to take time out and do something together that's a bit of fun. We believe this is really key to the relationships we have with our clients to make sure it's not all just serious business..."

There was **confidence....**

Commitment...

...and some **..confusion..!**

But there was definitely a lot of fun had by all....

"How lucky are we to be taken out for such a fun event!? I think everyone had a great time and would love to do it again soon. Thanks Bruno and ECC - for organising the day, and for your ongoing support!"

A great day of serious fun....

Maybe it had something to do with the shower caps?

And of course, winners are grinners. In a remarkably close and fluctuating race where teams fortunes changed nearly every minute, the lead was initially held by Arup Light, but after they spun off and spent five minutes sitting in a gravel trap, was then led in the mid stages by Webb and Northrop, but Arup light drove like men possessed to get back to the front and after 124 grueling laps were the winners by a mere 20 seconds! A truly thrilling finish!

ECC want to congratulate the winning team for the day... Arup Light.

ARUP

We shape a better world

And we want to thank everyone for joining us and look forward to seeing you at the next event!
